

**2009 PROSPECTUS TO SHAREHOLDERS**

# **iSHARES® MSCI ALL PERU CAPPED INDEX FUND**

**JUNE 19, 2009**

» *Would you prefer to receive materials like this electronically?  
See inside cover for details.*

The Securities and Exchange Commission (“SEC”) has not approved or disapproved these securities or passed upon the adequacy of this prospectus. Any representation to the contrary is a criminal offense.

Dear iShares Shareholder:

Electronic delivery is the easiest, most convenient way to receive reporting on your iShares holdings. In addition, it's a way we can all care for our environment. To that end, we are pleased to offer shareholder reports and prospectuses online.

Once you have enrolled, you will no longer receive shareholder reports and prospectuses in the mail. Instead, you will receive e-mail notifications announcing that the shareholder report or prospectus has been posted on the iShares website at [www.iShares.com](http://www.iShares.com) and is available to be viewed or downloaded.

To sign up for electronic delivery, please follow these simple steps:

1. Go to [www.icsdelivery.com](http://www.icsdelivery.com).
2. From the main page, select the first letter of your brokerage firm's name.
3. Select your brokerage institution from the list that follows. If your brokerage firm is not listed, electronic delivery may not be available. Please contact your brokerage firm or financial adviser.
4. Fill out the appropriate information and provide the e-mail address where you would like your notifications sent.

Your information and e-mail address will be kept confidential and only used to deliver documents to you. If at any time you are not satisfied, you can cancel electronic delivery at [www.icsdelivery.com](http://www.icsdelivery.com) and once again receive physical delivery of your materials. If you have any questions, please contact your brokerage firm or financial adviser.

iShares Trust  
iShares, Inc.  
(each, a “Company”)

**Supplement dated November 10, 2009  
to the Prospectuses and Statements of Additional  
Information (“SAI”) for all series of iShares Trust  
and iShares, Inc.**

***The information in this Supplement updates information in, and should be read in conjunction with, each Prospectus and SAI as supplemented.***

Barclays Global Fund Advisors (the “Adviser”) serves as the investment adviser for each iShares fund (each, a “Fund”). On June 16, 2009, Barclays PLC (“Barclays”), the ultimate parent company of the Adviser, accepted a binding offer and entered into an agreement to sell its interests in the Adviser and certain affiliated companies to BlackRock, Inc. (the “Transaction”).

Under the Investment Company Act of 1940, as amended, completion of the Transaction will cause the automatic termination of each Fund’s current investment advisory agreement with the Adviser. In order for the management of each Fund to continue uninterrupted, each Fund’s Board of Trustees or Directors (the “Board”) approved a new investment advisory agreement. On November 4, 2009, special meetings of shareholders of the Funds were called and held to consider the approval of the new investment advisory agreement, to elect a Board of each Company and, for certain Funds, an additional proposal. The results of those special meetings of shareholders are described below.

- 1) At the first special meeting of shareholders, shareholders of record as of August 25, 2009 (the “Record Date”) of each Fund (except as noted below) approved a new investment advisory agreement between the respective Company, on behalf of each of the Funds, and the Adviser, which will take effect upon the consummation of the Transaction.
- 2) The first special meeting of shareholders of the Funds listed below has been adjourned until November 19, 2009, at 5:00 p.m. (Pacific Time).

- 4) At the second special meeting of shareholders, shareholders as of the Record Date of each Company approved the election of each of the nominees to serve on the Board of Trustees and Directors. With the exception of Mr. Robert Kapito, each Trustee's/Director's term of office commenced immediately upon their election at the November 4, 2009 special meeting of shareholders. Mr. Kapito's term of office will commence only upon the consummation of the Transaction.
- 5) The Funds listed below commenced operations after the Record Date (the "New Funds"). As a result, shareholders were not entitled to notice of and to vote at the special meetings of shareholders meetings. Prior to the commencement of operations, the Board of Trustees or Directors and the sole shareholder of each New Fund approved a new investment advisory agreement between the respective Company, on behalf of each of the New Funds, and the Adviser. The new investment advisory agreement will take effect upon the consummation of the Transaction. Since the shareholders as of the Record Date of each Company approved the election of each of the nominees to serve on the Board of Trustees and Directors, the New Funds will also be overseen by the elected Trustees and Directors.

iShares Trust

iShares, Inc.

**Supplement dated June 19, 2009  
to the Prospectuses for all series of iShares Trust  
and iShares, Inc. (collectively, the “Funds”)**

***The information in this Supplement updates information in, and should be read in conjunction with, each Prospectus.***

Barclays Global Fund Advisors (the “Adviser”) serves as the investment adviser for each iShares fund (each, a “Fund”). On June 16, 2009, Barclays PLC (“Barclays”), the ultimate parent company of the Adviser, accepted a binding offer and entered into an agreement to sell its interests in the Adviser and certain affiliated companies to BlackRock, Inc. (the “BlackRock Transaction”). The BlackRock Transaction is subject to certain regulatory approvals, as well as other conditions to closing. The previously announced agreement, providing for the sale by Barclays of its interests in the Adviser and certain affiliated companies to a holding company of CVC Capital Partners Group SICAV-FIS S.A. was terminated in connection with the BlackRock Transaction.

Under the Investment Company Act of 1940, as amended, completion of the BlackRock Transaction will cause the automatic termination of each Fund’s current investment advisory agreement with the Adviser. In order for the management of each Fund to continue uninterrupted, each Fund’s Board of Directors or Trustees (the “Board”) will be asked to approve a new investment advisory agreement. If approved by the Board, the new investment advisory agreement will be submitted to the shareholders of each Fund for their approval.

If you have any additional questions, please call 1-800-iShares (1-800-474-2737).

# iShares®

iShares Trust (the “Trust”) is a registered investment company that consists of more than 145 separate investment portfolios called funds. This prospectus (the “Prospectus”) relates to the following fund:

iShares MSCI All Peru Capped Index Fund (the “Fund”).

**CUSIP:** 464289842

**Trading Symbol:** EPU

**Underlying Index:** MSCI All Peru Capped Index™

The Fund issues and redeems shares at their net asset value (“NAV”) only in blocks of 50,000 shares or multiples thereof (“Creation Units”). Only certain large institutional investors known as “Authorized Participants” may purchase or redeem Creation Units directly with the Fund at NAV. These transactions are usually in exchange for a basket of securities similar to the Fund’s portfolio and an amount of cash. *Except when aggregated in Creation Units, shares of the Fund are not redeemable securities. Shareholders who are not Authorized Participants may not redeem shares directly from the Fund at NAV.*

iShares® is a registered trademark of Barclays Global Investors, N.A. (“BGI”).

# Introduction

This Prospectus contains important information about investing in the Fund. Please read this Prospectus carefully before you make any investment decisions. Additional information regarding the Fund is available at [www.iShares.com](http://www.iShares.com).

Barclays Global Fund Advisors (“BGFA”) is the investment adviser to the Fund. Shares of the Fund are listed and trade at market prices on NYSE Arca, Inc. (“NYSE Arca”). The market price for a share of the Fund may be different from the Fund’s most recent NAV per share. The Fund has its own CUSIP number and exchange trading symbol.

The Fund is an exchange traded fund (commonly referred to as an “ETF”). ETFs are funds that trade like other publicly-traded securities. The Fund is designed to track an index. Similar to shares of an index mutual fund, each share of the Fund represents a partial ownership in an underlying portfolio of securities intended to track a market index. Unlike shares of a mutual fund, which can be bought and redeemed from the issuing fund by all shareholders at a price based on NAV, shares of the Fund may be purchased or redeemed directly from the Fund at NAV solely by Authorized Participants. Also unlike shares of a mutual fund, shares of the Fund are listed on a national securities exchange and trade in the secondary market at market prices that change throughout the day.

The Fund invests in a particular segment of the securities markets and seeks to track the performance of a securities index that generally is not representative of the market as a whole. The Fund is designed to be used as part of broader asset allocation strategies. Accordingly, an investment in the Fund should not constitute a complete investment program.

An investment in the Fund is not a bank deposit and it is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency, BGFA or any of its affiliates.

## Investment Objective

The Fund seeks investment results that correspond generally to the price and yield performance, before fees and expenses, of the MSCI All Peru Capped Index (the “Underlying Index”). The Fund’s investment objective and the Underlying Index may be changed without shareholder approval.

The Underlying Index is sponsored by an organization (the “Index Provider”) that is independent of the Fund and BGFA. The Index Provider determines the composition and relative weightings of the securities in the Underlying Index and publishes information regarding the market value of the Underlying Index. The Fund’s Index Provider is MSCI Inc. (“MSCI”). Additional information regarding the Index Provider is provided in the *Index Provider* section of this Prospectus.

## Principal Investment Strategies

The Underlying Index is a free float-adjusted market capitalization index designed to measure the performance of the “Broad Peru Equity Universe.” MSCI defines the

Broad Peru Equity Universe by identifying Peruvian equity securities that are classified in Peru according to the MSCI Global Investable Market Indices Methodology (a methodology employed by MSCI to construct its Global Investable Market Indices, which classifies eligible securities according to their country of listing) as well as securities of companies that are headquartered in Peru and have the majority of their operations based in Peru.

BGFA uses a “passive” or indexing approach to try to achieve the Fund’s investment objective. Unlike many investment companies, the Fund does not try to “beat” the index it tracks and does not seek temporary defensive positions when markets decline or appear overvalued.

Indexing may eliminate the chance that the Fund will substantially outperform its Underlying Index but also may reduce some of the risks of active management, such as poor security selection. Indexing seeks to achieve lower costs and better after-tax performance by keeping portfolio turnover low in comparison to actively managed investment companies.

The Fund generally invests at least 80% of its assets in the securities of its Underlying Index and depositary receipts representing securities in the Underlying Index. The Fund may invest the remainder of its assets in securities not included in its Underlying Index, but which BGFA believes will help the Fund track its Underlying Index, and in futures contracts, options on futures contracts, options and swaps as well as cash and cash equivalents, including shares of money market funds affiliated with BGFA.

BGFA uses a representative sampling indexing strategy to manage the Fund as described below.

**Representative Sampling.** “Representative sampling” is an indexing strategy that involves investing in a representative sample of securities that collectively has an investment profile similar to the Underlying Index. The securities selected are expected to have, in the aggregate, investment characteristics (based on factors such as market capitalization and industry weightings), fundamental characteristics (such as return variability and yield) and liquidity measures similar to those of the Underlying Index. The Fund may or may not hold all of the securities in the Underlying Index.

**Tracking Error.** An index is a theoretical financial calculation while the Fund is an actual investment portfolio. The performance of the Fund and its Underlying Index may vary due to transaction costs, foreign currency valuation, asset valuations, corporate actions (such as mergers and spin-offs), timing variances, and differences between the Fund’s portfolio and the Underlying Index resulting from legal restrictions (such as diversification requirements) that apply to the Fund but not to the Underlying Index or the use of representative sampling. “Tracking error” is the difference between the performance (return) of the Fund’s portfolio and that of its Underlying Index. BGFA expects that, over time, the Fund’s tracking error will not exceed 5%. Because the Fund uses a representative sampling indexing strategy, it can be expected to have a larger tracking error than if it used a replication indexing strategy. “Replication” is an indexing strategy in which a fund invests in substantially

all of the securities in its underlying index in approximately the same proportions as in the underlying index.

**Industry Concentration Policy.** The Fund will concentrate its investments (*i.e.*, hold 25% or more of its total assets) in a particular industry or group of industries to approximately the same extent that its Underlying Index is concentrated. For purposes of this limitation, securities of the U.S. government (including its agencies and instrumentalities) and repurchase agreements collateralized by U.S. government securities are not considered to be issued by members of any industry.

## Principal Risks

The Fund is subject to the principal risks noted below, any of which may adversely affect the Fund's NAV, trading price, yield, total return and ability to meet its investment objective. You could lose all or part of your investment in the Fund, and the Fund's performance could trail that of other investments.

**Asset Class Risk.** The securities in the Underlying Index or the Fund's portfolio may underperform the returns of other securities or indexes that track other industries, groups of industries, markets, asset classes or sectors. Various types of securities or indexes tend to experience cycles of outperformance and underperformance in comparison to the general securities markets.

**Central and South American Economic Risk.** The economies of certain Central and South American countries, including Peru, have experienced high interest rates, economic volatility, inflation, currency devaluations and high unemployment rates. In addition, commodities (such as oil, gas and minerals) represent a significant percentage of the region's and Peru's exports and many economies in this region are particularly sensitive to fluctuations in commodity prices. Adverse economic events in any of the countries in this region may have a significant adverse effect on Peru's economy.

**Commodity Exposure Risk.** The agriculture, fisheries and mining sectors of Peru's economy account for a large portion of its exports. Any changes in these sectors or fluctuations in the commodity markets could have an adverse impact on the Peruvian economy. Commodity prices may be influenced or characterized by unpredictable factors, including, where applicable, high volatility, changes in supply and demand relationships, weather, agriculture, trade, pestilence, changes in interest rates and monetary and other governmental policies, action and inaction. Securities of companies held by the Fund that are dependent on a single commodity, or are concentrated in a single commodity sector, may typically exhibit even higher volatility attributable to commodity prices.

**Concentration Risk.** To the extent that the Fund's or the Underlying Index's portfolio is concentrated in the securities of companies in a particular market, industry, group of industries, sector or asset class, the Fund may be adversely affected by the performance of those securities, may be subject to increased price volatility and may be more susceptible to adverse economic, market, political or regulatory occurrences affecting that market, industry, group of industries, sector or asset class.

**Currency Risk.** Because the Fund's NAV is determined on the basis of the U.S. dollar, investors may lose money if the currency of a non-U.S. market in which the Fund invests depreciates against the U.S. dollar, even if the local currency value of the Fund's holdings in that market increases.

**Custody Risk.** Custody risk refers to the risks inherent in the process of clearing and settling trades and to the holding of securities by local banks, agents and depositories. Low trading volumes and volatile prices in less developed markets make trades harder to complete and settle, and governments or trade groups may compel local agents to hold securities in designated depositories that are not subject to independent evaluation. Local agents are held only to the standards of care of their local markets. The less developed a country's securities market is, the greater the likelihood of custody problems.

**Emerging Markets Risk.** Investments in emerging markets are subject to a greater risk of loss than investments in developed markets. This is due to, among other things, greater market volatility, lower trading volume, political and economic instability, greater risk of a market shutdown and more governmental limitations on foreign investments than typically found in developed markets. Countries such as Peru may lack the infrastructure necessary to induce large amounts of foreign trade and investment.

**Energy Risk.** The Peruvian economy is dependent on the financial health of companies in the energy sector. The energy sector is cyclical and highly dependent on commodities prices, and the market values of companies in the energy sector are strongly affected by the levels and volatility of global energy prices, capital expenditures on exploration and production, energy conservation efforts, exchange rates and technological advances. Energy companies operating in countries with less developed regulatory regimes or a history of expropriation, nationalization or other adverse policies may face additional risks. Energy companies also face a significant risk of civil liability from accidents resulting in injury or loss of life or property, pollution or other environmental mishaps, equipment malfunctions or mishandling of materials and a risk of loss from terrorism and natural disasters. Any such event could have serious consequences for the general population of the area affected and result in a material adverse impact on the Fund's portfolio securities and the performance of the Fund.

**Geographic Risk.** Peru is located in a part of the world that has historically been prone to natural disasters such as earthquakes, volcanoes, droughts, floods and tsunamis. In addition, emerging markets such as Peru are economically sensitive to environmental events. Any natural disaster could have a significant adverse impact on the economies of this geographic area.

**Issuer Risk.** The performance of the Fund depends on the performance of individual companies in which the Fund invests. Any issuer may perform poorly, causing the value of its securities to decline. Poor performance may be caused by poor management decisions, competitive pressures, changes in technology, disruptions in supply, labor problems or shortages, corporate restructurings, fraudulent disclosures or other factors. Issuers may, in times of distress or on their own discretion, decide to reduce or eliminate dividends, which may also cause their stock prices to decline.

**Management Risk.** The Fund will not fully replicate its Underlying Index and may hold securities not included in its Underlying Index. As a result, the Fund is subject to the risk that BGFA's investment management strategy, the implementation of which is subject to a number of constraints, may not produce the intended results.

**Market Risk.** The Fund's NAV is expected to fluctuate in response to securities market movements. The Fund could lose money over short periods due to fluctuation in the Fund's NAV in response to short-term market movements and over longer periods during market downturns. Securities may decline in value due to factors affecting securities markets generally or particular industries represented in the markets. The value of a security may decline due to general market conditions, economic trends or events that are not specifically related to the issuer of the security or to factors that affect a particular industry or industries. During a general economic downturn in the securities markets, multiple asset classes may be negatively affected.

### **Market Trading Risks**

*Absence of Active Market.* Although shares of the Fund are listed for trading on one or more stock exchanges, there can be no assurance that an active trading market for such shares will develop or be maintained.

*Risks of Secondary Listings.* The Fund's shares may be listed or traded on U.S. and non-U.S. stock exchanges other than the U.S. stock exchange where the Fund's primary listing is maintained. There can be no assurance that the Fund's shares will continue to trade on any such stock exchange or in any market or that the Fund's shares will continue to meet the requirements for listing or trading on any exchange or in any market. The Fund's shares may be less actively traded in certain markets than others, and investors are subject to the execution and settlement risks and market standards of the market where they or their broker direct their trades for execution. Certain information available to investors who trade Fund shares on a U.S. stock exchange during regular U.S. market hours may not be available to investors who trade in other markets, which may result in secondary market prices in such markets being less efficient.

*Secondary Market Trading Risks.* Shares of the Fund may trade in the secondary market at times when the Fund does not accept orders to purchase or redeem shares. At such times, shares may trade in the secondary market with more significant premiums or discounts than might be experienced at times when the Fund accepts purchase and redemption orders.

Secondary market trading in Fund shares may be halted by a stock exchange because of market conditions or other reasons. In addition, trading in Fund shares on a stock exchange or in any market may be subject to trading halts caused by extraordinary market volatility pursuant to "circuit breaker" rules on the exchange or market. There can be no assurance that the requirements necessary to maintain the listing or trading of Fund shares will continue to be met or will remain unchanged.

*Shares of the Fund May Trade at Prices Other Than NAV.* Shares of the Fund trade on exchanges at prices at, above or below their most recent NAV. The per share NAV of the Fund is calculated at the end of each business day and fluctuates with changes in the market value of the Fund's holdings since the most recent calculation. The

trading prices of the Fund's shares fluctuate continuously throughout trading hours based on market supply and demand rather than NAV. The trading prices of the Fund's shares may deviate significantly from NAV during periods of market volatility. **ANY OF THESE FACTORS MAY LEAD TO THE FUND'S SHARES TRADING AT A PREMIUM OR DISCOUNT TO NAV.** However, because shares can be created and redeemed in Creation Units at NAV (unlike shares of many closed-end funds, which frequently trade at appreciable discounts from, and sometimes at premiums to, their NAVs), BGFA believes that large discounts or premiums to the NAV of the Fund are not likely to be sustained over the long-term. While the creation/redemption feature is designed to make it likely that the Fund's shares normally will trade on exchanges at prices close to the Fund's next calculated NAV, exchange prices are not expected to correlate exactly with the Fund's NAV due to timing reasons as well as market supply and demand factors. In addition, disruptions to creations and redemptions or the existence of extreme market volatility may result in trading prices that differ significantly from NAV. If a shareholder purchases at a time when the market price is at a premium to the NAV or sells at a time when the market price is at a discount to the NAV, the shareholder may sustain losses.

*Costs of Buying or Selling Fund Shares.* Buying or selling Fund shares involves two types of costs that apply to all securities transactions. When buying or selling shares of the Fund through a broker, you will incur a brokerage commission or other charges imposed by brokers as determined by that broker. In addition, you will also incur the cost of the "spread" – that is, the difference between what professional investors are willing to pay for Fund shares (the "bid" price) and the price at which they are willing to sell Fund shares (the "ask" price). Because of the costs inherent in buying or selling Fund shares, frequent trading may detract significantly from investment results and an investment in Fund shares may not be advisable for investors who anticipate regularly making small investments.

**Natural Resources Sector Risk.** The Peruvian economy is supported by rich mineral reserves. The profitability of companies in the natural resources sector can be affected by worldwide energy prices, limits on exploration, and production spending. Companies in the natural resources sector are affected by government regulation, world events and economic conditions. Companies in the natural resources sector are at risk for environmental damage claims. Companies in the natural resources sector could be adversely affected by commodity price volatility, changes in exchange rates, imposition of import controls and increased competition. Companies in the natural resources sector may be adversely affected by depletion of resources, technological developments, and labor relations.

**Non-Diversification Risk.** The Fund is classified as "non-diversified." This means that the Fund may invest a large percentage of its assets in securities issued by or representing a small number of issuers. As a result, the Fund may be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory occurrence affecting these issuers.

**Non-U.S. Securities Risks.** Investments in the securities of non-U.S. issuers are subject to all the risks of investing in the market of such issuers, including market fluctuations caused by economic and political developments. As a result of investing

in non-U.S. securities, the Fund may be subject to increased risk of loss caused by any of the factors listed below:

- Lower levels of liquidity and market efficiency;
- Greater securities price volatility;
- Exchange rate fluctuations and exchange controls;
- Less availability of public information about issuers;
- Limitations on foreign ownership of securities;
- Imposition of withholding or other taxes;
- Imposition of restrictions on the expatriation of the funds or other assets of the Fund;
- Higher transaction and custody costs and delays in settlement procedures;
- Difficulties in enforcing contractual obligations;
- Lower levels of regulation of the securities market;
- Weaker accounting, disclosure and reporting requirements; and
- Legal principles relating to corporate governance, directors' fiduciary duties and liabilities and stockholders' rights in markets in which the Fund invests may differ and/or may not be as extensive or protective as those that apply in the United States.

**Passive Investment Risk.** The Fund is not actively managed and may be affected by a general decline in market segments relating to its Underlying Index. The Fund invests in securities included in, or representative of, its Underlying Index regardless of their investment merits. BGFA does not attempt to take defensive positions in declining markets.

**Reliance on Trading Partners Risk.** The Peruvian economy is dependent on commodity prices and the economies of other Central and South American countries, Europe, Asia, particularly China, and the United States as key trading partners. Reduction in spending on Peruvian products and services by any of these trading partners or a downturn in any of these economies could adversely affect the Peruvian economy.

**Security Risk.** Peru has historically experienced strained international relations due to territorial disputes, historical animosities or other defense concerns. These situations may cause uncertainty in the Peruvian market and may adversely affect the performance of the Peruvian economy.

**Structural Risks.** The Peruvian economy is subject to political, social, economic and regulatory risks which could adversely affect investments in the Fund. However, Peru has entered into, and is implementing, a bilateral trade agreement with the U.S. which is designed to help protect private U.S. investments in Peru, develop market-oriented policies in partner countries, and promote U.S. exports to Peru. This program may have the effect of limiting the potential risks listed below:

*Political and Social Risk.* Peru has experienced periods of political instability and social unrest in the past. Peru continues to experience significant unemployment in certain regions as well as widespread underemployment.

*Expropriation Risk.* There may be a risk of loss due to expropriation, nationalization, confiscation of assets and property or the imposition of restrictions on foreign investments and on repatriation of capital invested, particularly if the bilateral trade agreement with the U.S. is not fully implemented or fails in its purpose.

*Currency Risk.* Peru has experienced economic instability resulting from periods of high inflation and currency devaluations. Since 2000, however, Peru's currency has remained relatively stable against the U.S. dollar.

*Government Control and Regulation.* Heavy regulation of labor is pervasive in Peru and may stifle Peruvian economic growth.

**Tracking Error Risk.** Imperfect correlation between the Fund's portfolio securities and those in its Underlying Index, rounding of prices, changes to the Underlying Index and regulatory requirements may cause tracking error, the divergence of the Fund's performance from that of its Underlying Index. This risk may be heightened during times of increased market volatility or other unusual market conditions. Tracking error also may result because the Fund incurs fees and expenses while its Underlying Index does not. Due to the relative illiquidity of the Peruvian securities market and other factors particular to Peru, including tax law matters described in the *Taxes on Distributions* section of this Prospectus, BGFA expects that the Fund will experience tracking error that is significantly higher than is typical for equity index ETFs.

**Valuation Risk.** Because non-U.S. exchanges may be open on days when the Fund does not price its shares, the value of the securities in the Fund's portfolio may change on days when shareholders will not be able to purchase or sell the Fund's shares.

## Portfolio Holdings Information

A description of the Trust's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the Fund's Statement of Additional Information ("SAI"). The top holdings of the Fund can be found at [www.iShares.com](http://www.iShares.com). Fund fact sheets provide information regarding the Fund's top holdings and may be requested by calling 1-800-iShares (1-800-474-2737).

## Performance Information

As of the date of this Prospectus, the Fund has been in operation for less than one full calendar year and therefore does not report its performance information.

# Fees and Expenses

The following table describes the fees and expenses that you will incur if you own shares of the Fund. You will also incur usual and customary brokerage commissions when buying or selling shares of the Fund:

Shareholder Fees (fees paid directly from your investment)	Annual Fund Operating Expenses (expenses that are deducted from the Fund's assets, expressed as a percentage of average net assets)			Total Annual Fund Operating Expenses
	Management Fees <sup>1</sup>	Distribution and Service (12b-1) Fees	Other Expenses <sup>2</sup>	
None	0.63%	None	None	0.63%

<sup>1</sup> BGFA may voluntarily waive a portion of the management fee, as it determines, from time to time; this table does not reflect such waivers or reimbursements. Any such waiver or reimbursement may be eliminated by BGFA at any time.

<sup>2</sup> The Trust's Investment Advisory Agreement provides that BGFA will pay all operating expenses of the Fund, except interest expense and taxes (both expected to be *de minimis*), any brokerage expenses, future distribution fees or expenses and extraordinary expenses.

**Example.** This example is intended to help you compare the cost of owning shares of the Fund with the cost of investing in other funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then sell all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

1 Year	3 Years
\$64	\$202

# Management

**Investment Adviser.** As investment adviser, BGFA has overall responsibility for the general management and administration of the Trust. BGFA provides an investment program for the Fund and manages the investment of the Fund's assets. In seeking to achieve the Fund's investment objective, BGFA uses teams of portfolio managers, investment strategists and other investment specialists. This team approach brings together many disciplines and leverages BGFA's extensive resources.

Pursuant to the Investment Advisory Agreement between BGFA and the Trust (entered into on behalf of the Fund), BGFA is responsible for substantially all expenses of the Fund, including the cost of transfer agency, custody, fund administration, legal, audit and other services except interest expense and taxes (both expected to be *de minimis*), brokerage expenses, future distribution fees or expenses and extraordinary expenses.

For its investment advisory services to the Fund, BGFA is entitled to receive a management fee from the Fund based on the Fund's allocable portion of the

aggregate of the average daily net assets of the Fund and certain other iShares funds (iShares MSCI Brazil Index Fund, iShares MSCI Chile Investable Market Index Fund, iShares MSCI Israel Capped Investable Market Index Fund, iShares MSCI South Africa Index Fund, iShares MSCI South Korea Index Fund, iShares MSCI Taiwan Index Fund, iShares MSCI Thailand Investable Market Index Fund and iShares MSCI Turkey Investable Market Index Fund, which are offered in separate prospectuses) as follows: 0.74% per annum of the aggregate net assets less than or equal to \$2.0 billion, plus 0.69% per annum of the aggregate net assets between \$2.0 billion and \$4.0 billion, plus 0.64% per annum of the aggregate net assets between \$4.0 billion and \$8.0 billion, plus 0.57% per annum of the aggregate net assets between \$8.0 billion and \$16.0 billion, plus 0.51% per annum of the aggregate net assets in excess of \$16.0 billion.

As calculated on August 31, 2008, for its investment advisory services to the Fund, BGFA is entitled to receive a management fee from the Fund, based on a percentage of the Fund's average daily net assets, at an annual rate of 0.63%. Because the Fund has been in operation for less than one full fiscal year, this percentage reflects the rate at which BGFA will be paid.

BGFA is located at 400 Howard Street, San Francisco, CA 94105. It is a wholly-owned subsidiary of BGI, which in turn is a majority-owned subsidiary of Barclays Bank PLC. As of April 30, 2009, BGI and its affiliates, including BGFA, provided investment advisory services for assets in excess of \$2.0 trillion. BGI, BGFA, Barclays Global Investors Services, Barclays Bank PLC and their affiliates deal, trade and invest for their own accounts in the types of securities in which the Fund may also invest.

A discussion regarding the basis for the Trust's Board of Trustees' (the "Board") approval of the Investment Advisory Agreement with BGFA will be available in the Fund's annual report for the period ending August 31.

**Portfolio Managers.** Diane Hsiung and Greg Savage (the "Portfolio Managers") are primarily responsible for the day-to-day management of the Fund. Each Portfolio Manager is responsible for various functions related to portfolio management, including, but not limited to, investing cash inflows, coordinating with members of his or her team to focus on certain asset classes, implementing investment strategy, researching and reviewing investment strategy and overseeing members of his or her portfolio management team with more limited responsibilities.

Diane Hsiung is an employee of BGFA and BGI and, together with the other Portfolio Manager, is primarily responsible for the day-to-day management of the Fund. Ms. Hsiung has been a senior portfolio manager for BGFA and BGI since 2007 and a portfolio manager for BGFA and BGI from 2002 to 2006. Ms. Hsiung has been a Portfolio Manager of the Fund since inception.

Greg Savage is an employee of BGFA and BGI and, together with the other Portfolio Manager, is primarily responsible for the day-to-day management of the Fund. Mr. Savage has been a senior portfolio manager for BGFA and BGI since 2006 and a portfolio manager for BGFA and BGI from 2001 to 2006. Mr. Savage has been a Portfolio Manager of the Fund since inception.

The Fund's SAI provides additional information about the Portfolio Managers' compensation, other accounts managed by the Portfolio Managers and the Portfolio Managers' ownership (if any) of shares in the Fund.

**Administrator, Custodian and Transfer Agent.** State Street Bank and Trust Company ("State Street") is the administrator, custodian and transfer agent for the Fund.

## Shareholder Information

*Additional shareholder information, including how to buy and sell shares of the Fund, is available free of charge by calling toll-free: 1-800-iShares (1-800-474-2737) or visiting our website at [www.iShares.com](http://www.iShares.com).*

**Buying and Selling Shares.** Shares of the Fund will be listed for trading on a national securities exchange during the trading day. Shares can be bought and sold throughout the trading day like shares of other publicly-traded companies. The Trust does not impose any minimum investment for shares of the Fund purchased on an exchange. Buying or selling Fund shares involves two types of costs that may apply to all securities transactions. When buying or selling shares of the Fund through a broker, you will likely incur a brokerage commission or other charges determined by your broker. In addition, you may incur the cost of the "spread" – that is, any difference between the bid price and the ask price. The commission is frequently a fixed amount and may be a significant proportional cost for investors seeking to buy or sell small amounts of shares. The spread varies over time for shares of the Fund based on its trading volume and market liquidity, and is generally lower if the Fund has a lot of trading volume and market liquidity and higher if the Fund has little trading volume and market liquidity. The Fund's shares trade under the trading symbol EPU.

Shares of the Fund may be acquired or redeemed directly from the Fund only in Creation Units or multiples thereof, as discussed in the *Creations and Redemptions* section of this Prospectus. Only an Authorized Participant (as defined in the *Creations and Redemptions* section) may create or redeem directly with the Fund. Once created, shares of the Fund generally trade in the secondary market in amounts less than a Creation Unit.

The Board has adopted a policy of not monitoring for frequent purchases and redemptions of Fund shares ("frequent trading") that appear to attempt to take advantage of a potential arbitrage opportunity presented by a lag between a change in the value of the Fund's portfolio securities after the close of the primary markets for the Fund's portfolio securities and the reflection of that change in the Fund's NAV ("market timing"), because the Fund sells and redeems its shares directly through transactions that are in-kind and/or for cash with a deadline for placing cash-related transactions no later than the close of the primary markets for the Fund's portfolio securities. The Board has not adopted a policy of monitoring for other frequent trading activity because shares of the Fund are listed and traded on national securities exchanges.

The national securities exchange on which the Fund's shares are listed is open for trading Monday through Friday and is closed on weekends and the following

holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The Fund's primary listing exchange is NYSE Arca.

Section 12(d)(1) of the Investment Company Act of 1940, as amended, restricts investments by registered investment companies in the securities of other investment companies. Registered investment companies are permitted to invest in the Fund beyond the limits set forth in Section 12(d)(1), subject to certain terms and conditions set forth in an SEC exemptive order issued to the Trust, including that such investment companies enter into an agreement with the Trust.

**Book Entry.** Shares of the Fund are held in book-entry form, which means that no stock certificates are issued. The Depository Trust Company ("DTC") or its nominee is the record owner of all outstanding shares of the Fund and is recognized as the owner of all shares for all purposes.

Investors owning shares of the Fund are beneficial owners as shown on the records of DTC or its participants. DTC serves as the securities depository for shares of the Fund. DTC participants include securities brokers and dealers, banks, trust companies, clearing corporations and other institutions that directly or indirectly maintain a custodial relationship with DTC. As a beneficial owner of shares, you are not entitled to receive physical delivery of stock certificates or to have shares registered in your name, and you are not considered a registered owner of shares. Therefore, to exercise any right as an owner of shares, you must rely upon the procedures of DTC and its participants. These procedures are the same as those that apply to any other securities that you hold in book-entry or "street name" form.

**Share Prices.** The trading prices of the Fund's shares in the secondary market generally differ from the Fund's daily NAV per share and are affected by market forces such as supply and demand, economic conditions and other factors. Information regarding the intraday value of shares of the Fund, also known as the "indicative optimized portfolio value" ("IOPV"), is disseminated every 15 seconds throughout the trading day by the national securities exchange on which the Fund's shares are listed or by market data vendors or other information providers. The IOPV is based on the current market value of the securities and/or cash required to be deposited in exchange for a Creation Unit. The IOPV does not necessarily reflect the precise composition of the current portfolio of securities held by the Fund at a particular point in time nor the best possible valuation of the current portfolio. Therefore, the IOPV should not be viewed as a "real-time" update of the NAV, which is computed only once a day. The IOPV is generally determined by using both current market quotations and/or price quotations obtained from broker-dealers that may trade in the portfolio securities held by the Fund. The quotations of certain Fund holdings may not be updated during U.S. trading hours if such holdings do not trade in the U.S. The Fund is not involved in, or responsible for, the calculation or dissemination of the IOPV and makes no representation or warranty as to its accuracy.

**Determination of Net Asset Value.** The NAV of the Fund is generally determined once daily Monday through Friday generally as of the regularly scheduled close of business of the New York Stock Exchange ("NYSE") (normally 4:00 p.m., Eastern time) on each day that the NYSE is open for trading, based on prices at the time of closing, provided

that (a) any assets or liabilities denominated in currencies other than the U.S. dollar shall be translated into U.S. dollars at the prevailing market rates on the date of valuation as quoted by one or more major banks or dealers that makes a two-way market in such currencies (or a data service provider based on quotations received from such banks or dealers) and (b) U.S. fixed-income assets may be valued as of the announced closing time for trading in fixed-income instruments on any day that the Securities Industry and Financial Markets Association announces an early closing time. The NAV of the Fund is calculated by dividing the value of the net assets of the Fund (*i.e.*, the value of its total assets less total liabilities) by the total number of outstanding shares of the Fund, generally rounded to the nearest cent.

Investments held by the Fund are valued pursuant to the pricing policy and procedures approved by the Board. In calculating the Fund's NAV, the Fund's investments are generally valued using market valuations. A market valuation generally means a valuation (i) obtained from an exchange, a pricing service, or a major market maker (or dealer), (ii) based on a price quotation or other equivalent indication of value supplied by an exchange, a pricing service, or a major market maker (or dealer) or (iii) based on amortized cost. In the case of shares of funds that are not traded on an exchange, a market valuation means such fund's published NAV per share. BGFA may use various pricing services or discontinue the use of any pricing service. A price obtained from a pricing service based on such pricing service's valuation matrix may be considered a market valuation.

In the event that current market valuations are not readily available or such valuations do not reflect current market values, the affected investments will be valued using fair value pricing. The frequency with which the Fund's investments are valued using fair value pricing is primarily a function of the types of securities and other assets in which the Fund invests pursuant to its investment objective, strategies and limitations.

Investments that may be valued using fair value pricing include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (*i.e.*, one that may not be publicly sold without registration under the Securities Act of 1933, as amended (the "1933 Act")); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation; (vi) a security affected by currency controls or restrictions; and (vii) a security or other assets affected by a significant event (*i.e.*, an event that occurs after the close of the markets on which the security is traded but before the time as of which the Fund's NAV is computed and that may materially affect the value of the Fund's investments). Examples of events that may be significant events are government actions, natural disasters, armed conflict, acts of terrorism and significant market fluctuations.

Valuing the Fund's investments using fair value pricing will result in using prices for those investments that may differ from current market valuations. Use of fair value prices and certain current market valuations could result in a difference between the prices used to calculate the Fund's NAV and the prices used by the Underlying Index,

which, in turn, could result in a difference between the Fund's performance and the performance of the Underlying Index.

The value of assets denominated in non-U.S. currencies is converted into U.S. dollars using exchange rates deemed appropriate by BGFA as investment adviser. Use of a rate different from the rate used by the Index Provider may adversely affect the Fund's ability to track the Underlying Index.

### **Dividends and Distributions**

*General Policies.* Dividends from net investment income, if any, are generally declared and paid monthly by the Fund. Distributions of net realized securities gains, if any, generally are declared and paid once a year, but the Trust may make distributions on a more frequent basis for the Fund. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve its status as a regulated investment company ("RIC") or to avoid imposition of income or excise taxes on undistributed income or realized gains.

Dividends and other distributions on shares of the Fund are distributed on a *pro rata* basis to beneficial owners of such shares. Dividend payments are made through DTC participants and indirect participants to beneficial owners then of record with proceeds received from the Fund.

*Dividend Reinvestment Service.* No dividend reinvestment service is provided by the Trust. Broker-dealers may make available the DTC book-entry Dividend Reinvestment Service for use by beneficial owners of the Fund for reinvestment of their dividend distributions. Beneficial owners should contact their broker to determine the availability and costs of the service and the details of participation therein. Brokers may require beneficial owners to adhere to specific procedures and timetables. If this service is available and used, dividend distributions of both income and realized gains will be automatically reinvested in additional whole shares of the Fund purchased in the secondary market.

**Taxes.** As with any investment, you should consider how your investment in shares of the Fund will be taxed. The tax information in this Prospectus is provided as general information. You should consult your own tax professional about the tax consequences of an investment in shares of the Fund.

Unless your investment in Fund shares is made through a tax-exempt entity or tax-deferred retirement account, such as an individual retirement account, you need to be aware of the possible tax consequences when the Fund makes distributions or you sell Fund shares.

**Taxes on Distributions.** Distributions from the Fund's net investment income (other than qualified dividend income), including distributions of income from securities lending and distributions out of the Fund's net short-term capital gains, if any, are taxable to you as ordinary income. Distributions by the Fund of net long-term capital gains in excess of net short-term capital losses (capital gain dividends) are taxable to you as long-term capital gains, generally at a 15% tax rate (0% at certain income levels), regardless of how long you have held the Fund's shares. Distributions by the Fund that qualify as qualified dividend income are taxable to you at long-term capital

gain rates. The 15% and 0% tax rates expire for taxable years beginning after December 31, 2010.

Dividends will be qualified dividend income to you if they are attributable to qualified dividend income received by the Fund, which, in general, includes dividend income from taxable U.S. corporations and qualified foreign corporations, provided that the Fund satisfies certain holding period requirements in respect of the stock of such corporations and has not hedged its position in the stock in certain ways. For this purpose, a qualified foreign corporation means any foreign corporation (i) that is incorporated in a possession of the United States, (ii) that is eligible for benefits under a comprehensive income tax treaty with the United States which includes an exchange of information program or (iii) if the stock with respect to which the dividend was paid is readily tradable on an established United States security market. The term excludes a corporation that is a passive foreign investment company. A large portion of the dividends received by the Fund may not be qualifying dividends.

Dividends received by the Fund from a real estate investment trust (“REIT”) or another RIC generally are qualified dividend income only to the extent the dividend distributions are made out of qualified dividend income received by such REIT or RIC. It is expected that dividends received by the Fund from a REIT and distributed to a shareholder generally will be taxable to the shareholder as ordinary income.

Under current law, the taxation of qualified dividend income at long-term capital gain rates will no longer apply for taxable years beginning after December 31, 2010.

A dividend will not be treated as qualified dividend income if the dividend is received with respect to any share of stock held without being hedged by the Fund, or to any share of the Fund held without being hedged by you, for fewer than 61 days during the 121-day period beginning at the date which is 60 days before the date on which such share becomes ex-dividend with respect to such dividend or in the case of certain preferred stock 91 days during the 181-day period beginning 90 days before such date. In general, your distributions are subject to U.S. federal income tax for the year when they are paid. Certain distributions paid in January, however, may be treated as paid on December 31 of the prior year.

If the Fund’s distributions exceed current and accumulated earnings and profits, all or a portion of the distributions made in the taxable year may be recharacterized as a return of capital to shareholders. A return of capital distribution generally will not be taxable but will reduce the shareholder’s cost basis and result in a higher capital gain or lower capital loss when those shares on which the distribution was received are sold.

If you are neither a resident nor a citizen of the United States or if you are a non-U.S. entity, the Fund’s ordinary income dividends (which include distributions of net short-term capital gains) will generally be subject to a 30% U.S. withholding tax, unless a lower treaty rate applies, provided that withholding tax will generally not apply to any gain or income realized by a non-U.S. shareholder in respect of any distributions of long-term capital gains or upon the sale or other disposition of shares of the Fund.

Dividends and interest received by the Fund with respect to non-U.S. securities may give rise to withholding and other taxes imposed by non-U.S. countries. Tax

conventions between certain countries and the United States may reduce or eliminate such taxes. If more than 50% of the total assets of the Fund at the close of a year consist of non-U.S. stocks or securities, the Fund may “pass through” to you certain non-U.S. income taxes (including withholding taxes) paid by the Fund. This means that you would be considered to have received as an additional dividend your share of such non-U.S. taxes, but you may be entitled to either a corresponding tax deduction in calculating your taxable income, or, subject to certain limitations, a credit in calculating your U.S. federal income tax.

For purposes of foreign tax credit calculations for U.S. shareholders of the Fund, non-U.S. capital gains taxes may not produce foreign source income, limiting the availability of such credits for U.S. tax purposes.

If you are a resident or a citizen of the United States, by law, back-up withholding will apply to your distributions and proceeds if you have not provided a taxpayer identification number or social security number and made other required certifications.

**Fund Tax Risk.** The Fund is subject to a 4.1% Peruvian dividend withholding tax on dividends paid by Peruvian companies. In addition, the Unified Text of the Income Tax Law of Peru, approved by Supreme Decree No. 179-2004-EF, and the Income Tax Law Regulations, approved by Supreme Decree No. 122-94-EF, generally provide that capital gains realized on sales of Peruvian securities are subject to taxation in Peru. Currently, capital gains realized by business entities (whether resident in Peru or not) as a consequence of the sale of Peruvian securities registered in the Securities Market Public Registry through a qualifying Peruvian exchange are exempted from the Peruvian income tax. Peruvian tax law imposes a 30% gross income tax on capital gains realized on other sales of Peruvian securities and sales of depository receipts representing Peruvian securities. The Fund intends to accrue a reserve for the 30% gross income tax on capital gains realized on sales of depository receipts representing Peruvian securities and on capital gains realized on sales of Peruvian securities not effected on qualifying Peruvian exchanges, including gains on shares and depository receipts distributed in redemption of Fund shares. It is possible that this tax will not be imposed because Peru’s tax administrative procedures and policies might not apply to non-Peruvian owners such as the Fund.

It is not expected that the Fund will be subject to tax in Peru based on its presence in Peru.

As a result of various modifications to the Unified Text of the Income Tax Law approved by Legislative Decree No. 972 on March 10, 2007 and in effect since January 1, 2009, capital gains realized on sales of Peruvian securities effected inside Peru will be subject to a 5% gross income tax after 2009. The Fund intends to pay the 5% tax on gains on sales effected in Peru in 2010 and subsequent years. This tax will be accrued during 2009 if there is appreciation during 2009 that will be subject to tax after 2009.

It is possible that the Fund, as a purchaser of securities, may be subject to a requirement that it withhold a 30% gross income tax from the proceeds payable to the seller of the securities on sales of applicable securities effected outside of Peru and pay that tax over to the Peruvian taxing authorities. It is not believed at this time that the withholding requirement will be enforced with respect to the Fund’s

acquisitions of securities by purchase nor that a withholding obligation would arise in connection with an exchange of Fund shares for securities or an exchange of securities for Fund shares.

Regulations providing clarifications to various aspects of the new rules have not yet been published. It is not clear at this time under what circumstances a transaction will be treated as effected inside or outside of Peru. There are uncertainties regarding the details of the intended operation of the law, particularly with respect to transactions effected by non-Peruvian entities. Among these uncertainties are uncertainties regarding the process for the vouching of cost basis of securities for the purposes of these taxes, uncertainties regarding the cost basis to be used to determine gain on securities sold on qualifying Peruvian exchanges after 2009 (a reference table and a procedure to determine the cost basis to be issued by the Peruvian Ministry of Economy and Finance, but that table and the procedure to be used have not yet been published), and uncertainties regarding the procedures to be applied in connection with the withholding of Peruvian tax. It is not yet clear what procedures, if any, will be implemented or whether the tax rules that apply to the Fund and its shareholders may be revised by legislation, judicial decisions or administrative action.

**Taxes When Shares are Sold.** Currently, any capital gain or loss realized upon a sale of Fund shares is generally treated as a long-term gain or loss if the shares have been held for more than one year. Any capital gain or loss realized upon a sale of Fund shares held for one year or less is generally treated as short-term gain or loss, except that any capital loss on the sale of shares held for six months or less is treated as long-term capital loss to the extent that capital gain dividends were paid with respect to such shares. It is not believed that Peru will attempt to impose a Peruvian capital gains tax on gains realized on sales of shares of the Fund in transactions effected outside of Peru by shareholders who are not otherwise subject to tax in Peru.

*The foregoing discussion summarizes some of the consequences under current U.S. federal tax law of an investment in the Fund. It is not a substitute for personal tax advice. You may also be subject to state and local taxation on Fund distributions and sales of shares. Consult your personal tax adviser about the potential tax consequences of an investment in shares of the Fund under all applicable tax laws.*

**Creations and Redemptions.** Prior to trading in the secondary market, shares of the Fund are “created” at NAV by market makers, large investors and institutions only in block-size Creation Units of 50,000 shares or multiples thereof. Each “creator” or “Authorized Participant” enters into an authorized participant agreement with the Fund’s distributor, SEI Investments Distribution Co. (the “Distributor”). Only an Authorized Participant may create or redeem directly with the Fund. A creation transaction, which is subject to acceptance by the transfer agent, generally takes place when an Authorized Participant deposits into the Fund a portfolio of securities approximating the holdings of the Fund and a specified amount of cash in exchange for a specified number of Creation Units. To the extent practicable, the composition of such portfolio generally corresponds *pro rata* to the holdings of the Fund.

Similarly, shares can be redeemed only in Creation Units, generally for a portfolio of securities held by the Fund (“Fund Securities”) and a specified amount of cash. *Except when aggregated in Creation Units, shares are not redeemable by the Fund.*

The prices at which creations and redemptions occur are based on the next calculation of NAV after an order is received in a form described in the authorized participant agreement.

The Fund intends to comply with the U.S. federal securities laws in accepting securities for deposits and satisfying redemptions with redemption securities, including that the securities accepted for deposits and the securities used to satisfy redemption requests will be sold in transactions that would be exempt from registration under the 1933 Act. Further, an Authorized Participant that is not a “qualified institutional buyer,” as such term is defined under Rule 144A of the 1933 Act, will not be able to receive Fund Securities that are restricted securities eligible for resale under Rule 144A.

Creations and redemptions must be made through a firm that is either a member of the Continuous Net Settlement System of the National Securities Clearing Corporation or a DTC participant and has executed an agreement with the Distributor with respect to creations and redemptions of Creation Unit aggregations. Information about the procedures regarding creation and redemption of Creation Units (including the cut-off times for receipt of creation and redemption orders) is included in the SAI.

Because new shares may be created and issued on an ongoing basis, at any point during the life of the Fund a “distribution,” as such term is used in the 1933 Act, may be occurring. Broker-dealers and other persons are cautioned that some activities on their part may, depending on the circumstances, result in their being deemed participants in a distribution in a manner that could render them statutory underwriters and subject to the prospectus delivery and liability provisions of the 1933 Act. Any determination of whether one is an underwriter must take into account all the relevant facts and circumstances of each particular case.

Broker-dealers should also note that dealers who are not “underwriters” but are participating in a distribution (as contrasted to ordinary secondary transactions), and thus dealing with shares that are part of an “unsold allotment” within the meaning of Section 4(3)(C) of the 1933 Act, would be unable to take advantage of the prospectus delivery exemption provided by Section 4(3) of the 1933 Act. For delivery of prospectuses to exchange members, the prospectus delivery mechanism of Rule 153 under the 1933 Act is available only with respect to transactions on a national securities exchange.

**Transaction Fees.** Investors are charged standard creation and redemption transaction fees to offset transfer and other transaction costs associated with the issuance and redemption of Creation Units. Purchasers and redeemers of Creation Units for cash are required to pay an additional variable charge (up to the maximum amount shown below) to compensate for brokerage and market impact expenses. The standard creation and redemption transaction fees are set forth below. The standard creation transaction fee is charged to each purchaser on the day such purchaser creates a Creation Unit. The fee is a single charge regardless of the number of Creation Units purchased by an investor on the same day. BGFA may, from time to time, at its own expense, compensate purchasers of Creation Units who have purchased substantial amounts of Creation Units and other financial institutions for administrative or marketing services. Similarly, the standard redemption transaction fee is a single charge regardless of the number of Creation Units redeemed on the

same day. Creations and redemptions through DTC for cash (when cash creations and redemptions are available or specified) are also subject to an additional variable charge up to the maximum amount shown in the table below. In addition, purchasers of shares in Creation Units are responsible for payment of the costs of transferring securities to the Fund and redeemers of shares in Creation Units are responsible for the costs of transferring securities from the Fund. Investors who use the services of a broker or other such intermediary may pay fees for such services.

The following table also shows, as of June 1, 2009, the approximate value of one Creation Unit, including standard and maximum additional creation and redemption transaction fees:

<u>Approximate Value of a Creation Unit</u>	<u>Creation Unit Size</u>	<u>Standard Creation/Redemption Transaction Fee</u>	<u>Maximum Additional Variable Charge for Creations*</u>	<u>Maximum Additional Variable Charge for Redemptions*</u>
\$1,250,000	50,000	\$1,500	3.0%	2.0%

\* As a percentage of the amount invested.

**Householding.** Householding is an option available to certain Fund investors. Householding is a method of delivery, based on the preference of the individual investor, in which a single copy of certain shareholder documents can be delivered to investors who share the same address, even if their accounts are registered under different names. Please contact your broker-dealer if you are interested in enrolling in householding and receiving a single copy of prospectuses and other shareholder documents, or if you are currently enrolled in householding and wish to change your householding status.

## Distribution

The Distributor distributes Creation Units for the Fund on an agency basis. The Distributor does not maintain a secondary market in shares of the Fund. The Distributor has no role in determining the policies of the Fund or the securities that are purchased or sold by the Fund. The Distributor's principal address is One Freedom Valley Drive, Oaks, PA 19456.

## Financial Highlights

As of the date of this Prospectus, the Fund has been in operation for less than one full calendar year and therefore does not report its financial highlights.

## Index Provider

MSCI is a leading provider of global indexes and benchmark related products and services to investors worldwide. MSCI is not affiliated with the Trust, BGI, BGFA, State Street, the Distributor or any of their respective affiliates.

BGI has entered into a license agreement with the Index Provider to use the Underlying Index. BGI sublicenses rights in the Underlying Index to the Trust at no charge.

## Disclaimers

The Fund is not sponsored, endorsed, sold or promoted by MSCI or any affiliate of MSCI. Neither MSCI nor any other party makes any representation or warranty, express or implied, to the owners of this Fund or any member of the public regarding advisability of investing in funds generally or in this Fund particularly or the ability of the Underlying Index to track general stock market performance.

MSCI is the licensor of certain trademarks, service marks and trade names of MSCI and of the Underlying Index which is determined, composed and calculated by MSCI without regard to the Trust, BGI, BGFA or the Fund. MSCI has no obligation to take the needs of the BGI, BGFA or the owners of the Fund into consideration in determining, composing or calculating the Underlying Index. MSCI is not responsible for and has not participated in the determination of the timing of, prices at, or quantities of the Fund to be issued or in the determination or calculation of the equation by which the Fund is redeemable for cash. Neither MSCI nor any other party has any obligation or liability to owners of the Fund in connection with the administration, marketing or trading of the Fund.

Although MSCI shall obtain information for inclusion in or for use in the calculation of the indexes from sources which MSCI considers reliable, neither MSCI nor any other party guarantees the accuracy and/or the completeness of the indexes or any data included therein, neither MSCI nor any other party makes any warranty, express or implied as to results to be obtained by licensee, licensee's customers and counterparties, owners of the Fund, or any other person or entity from the use of the indexes or any data included hereunder or for any other use. Neither MSCI nor any other party makes any express or implied warranties, and MSCI hereby expressly disclaims all warranties of merchantability or fitness for a particular purpose with respect to the indexes or any data included therein. Without limiting any of the foregoing, in no event shall MSCI or any other party have any liability for direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

Shares of the Fund are not sponsored, endorsed or promoted by NYSE Arca. NYSE Arca makes no representation or warranty, express or implied, to the owners of the shares of the Fund or any member of the public regarding the ability of the Fund to track the total return performance of the Underlying Index or the ability of the Underlying Index to track stock market performance. NYSE Arca is not responsible for, nor has it participated in, the determination of the compilation or the calculation of the Underlying Index, nor in the determination of the timing of, prices of, or quantities of shares of the Fund to be issued, nor in the determination or calculation of the equation by which the shares are redeemable. NYSE Arca has no obligation or liability to owners of the shares of the Fund in connection with the administration, marketing or trading of the shares of the Fund.

NYSE Arca does not guarantee the accuracy and/or the completeness of the Underlying Index or any data included therein. NYSE Arca makes no warranty, express or implied, as to results to be obtained by the Trust on behalf of the Fund as licensee, licensee's customers and counterparties, owners of the shares of the Fund, or any other person or entity from the use of the subject index or any data included therein in connection with the rights licensed as described herein or for any other use. NYSE Arca makes no express or implied warranties and hereby expressly disclaims all warranties of merchantability or fitness for a particular purpose with respect to the Underlying Index or any data included therein. Without limiting any of the foregoing, in no event shall NYSE Arca have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

BGFA does not guarantee the accuracy or the completeness of the Underlying Index or any data included therein and BGFA shall have no liability for any errors, omissions or interruptions therein.

BGFA makes no warranty, express or implied, to the owners of shares of the Fund or to any other person or entity, as to results to be obtained by the Fund from the use of the Underlying Index or any data included therein. BGFA makes no express or implied warranties and expressly disclaims all warranties of merchantability or fitness for a particular purpose or use with respect to the Underlying Index or any data included therein. Without limiting any of the foregoing, in no event shall BGFA have any liability for any special, punitive, direct, indirect or consequential damages (including lost profits), even if notified of the possibility of such damages.
